Egaugnal | [GitHub](#) | [Live Demo](#)

- Led server-side development, implemented authentication and route handling.
- Enhanced user experience with interactive card flip functionality and scoreboard.
- Tools: HTML, CSS, JavaScript, Sequelize, MySQL, Handlebars.js, Express, Node.js

Tech Blog | [GitHub](#) | [Live Demo](#)

- Solely developed a full-stack blogging platform for user discussions.
- Utilized modern web technologies to create a dynamic and responsive interface.
- Tools: HTML, CSS, JavaScript, Sequelize, MySQL, Handlebars.js, Express, Node.js

Professional Experience

Target - Specialty Sales Team Lead

Virginia Beach, VA | July 2022 – July 2024

- Led workload planning and problem-solving initiatives, ensuring seamless product flow and optimizing operational efficiency and customer satisfaction.
- Developed and implemented workflow processes, boosting productivity by over 20% and increasing output. Analyzed data to identify operational inefficiencies and drove continuous improvements.
- Mentored and trained team members on best practices and job knowledge, resulting in a 6% increase in sales and a 30% reduction in backroom inventory within three months. Promoted a culture of safety and customer focus.

Target - Inventory Control and Quality Assurance

Topeka, KS | July 2021 - July 2022

- Conducted weekly audits and root cause analysis to identify operational challenges, facilitating data-driven decision-making and process improvements.
- Proactively addressed inventory inaccuracies and supported team members with process and technology issues, ensuring smooth operations and minimizing disruptions.
- Developed a reporting system for inbound quality audits, improving key performance indicators by 6% in five weeks. Presented data-driven insights for quality improvement initiatives, enhancing overall performance.
- Applied root cause analysis to identify and resolve operational issues, delivering targeted coaching that reduced defect rates and improved operational efficiency and customer satisfaction.

Previous Roles in Supply Chain and Logistics

- Positions held at Target, Nine Line Apparel, Xeless, and Move One in various capacities, focusing on operational management, process improvement, and team leadership.

Education

Bachelor of Computer Science

Southern New Hampshire University, Manchester, NH
